*Build Out Line: The build out line promotes playing the ball out of the back in a less pressured setting. When the goalkeeper has the ball in his or her hands during play from the opponent, the opposing team must move behind the build out line until the ball is put into play.

Once the opposing team is behind the build out line, the goalkeeper can pass, throw or roll the ball into play (punts and drop kicks are not allowed).

After the ball is put into play by the goalkeeper, the opposing team can cross the build out line and play resumes as normal.

The opposing team must also move behind the build out line during a goal kick until the ball is put into play.

Mercy Rule: If a team is winning by 10, the winning team will sit out one of their players until the losing team gets within 5 goals of the winning team.
