

SSA Weather policy

Severe weather or adverse Field conditions may cause the suspension or cancellation of Training Sessions &/or Games. If lightning is observed or thunder is heard during a Training Session &/or Game, the Referee &/or Program Supervisors will end the Training Session &/or Game. All Players, Coaches, and Spectators must clear the Field immediately. In the case of rain (or sleet!) Squads & Teams should always be prepared for the prevailing or unexpected weather conditions. In the event of cold weather, sweatshirts without hoods may be worn under Jerseys. Knit caps and gloves may also be worn.

Different weather conditions may exist at our SSA Fields on the same night. It is always best to report to your Training Session &/or Game location on time and be prepared to Play. The Referee &/or the Program Supervisors will make the decision as to whether the Training Session &/or Game will take place and inform everyone on site. Our Team Managers & Coaches will be notified, & share any cancelations with you, once inclement weather decisions have been determined. It is impossible to predict the Marquette area weather. We do heavily rely upon the weather forecast. Our SSA Weather Committee will do their best to decide as to the cancellation of Training Sessions &/or Games for the evening, if inclement weather is predicted for the entire duration of a Session/Game, by 4:30pm for our 5:30pm Sessions/Games, by 5:30pm for our 6:30pm & 6:45pm Sessions/Games, & by 6:30pm for our 7:30pm Sessions/Games. Also, the cancellation of an early evening Training Session &/or Game our NMU Armory Fields, does not necessarily mean a later Training Session &/or Game at that same Field location will be cancelled. We do NOT reschedule missed Training Sessions OR Games. Coaches may re-add the missed Game, at the following Training Session, if Referees are available. Please continue to check our Website & check our Facebook page at: www.superiorlandsoccer.com & <http://www.facebook.com/superiorlandsoccer> for the most up to date information on weather related cancellations.

Thank-You,
Amy & Alex
