

April 2026

Hello SSA Soccer Families!

I'm excited to welcome you all to another fun Recreational Soccer Program Season. You have shared your feedback, & we have listened, making improvements to our 2026 Program. Our field sizes will remain larger-age appropriate; our rosters will have fewer players per team, & we will continue to provide more playing time during each Training Session & Game.

NMU Coaches continue to provide technical assistance to our recreational program, following US Soccer's Youth Guidelines, enhancing the quality experience, maximum touches, & a greater opportunity for each player on the field. With its success, we will continue with the Grass Roots Play-Practice-Play model.

These advancements require us to seek parent/family volunteers with a Soccer/Sports-Coaching background. Please consider becoming involved with your player's SSA Summer Soccer experience, or let us know of others you feel would be an asset to our coaching staff. As a token of our appreciation, your Players Registration fee will be reimbursed, at the end of our Season.

See you out on the Fields!

Amy L. Niemi - SSA Board President
